UPPER CANADA LEGER CENTRE FOR EDUCATION AND TRAINING

The Upper Canada Leger Centre for Education and Training has been in business since 1999 and has launched a campaign entitled "Passport to Prosperity". This program is designed to increase employer involvement with school-to-work programs. It provides a provincial database of employers involved or interested

in experiential learning and is managed by the program coordinators and educators in the community. The goal of Passport to Prosperity is to connect employers across Ontario with the educators who can help them become involved in new or existing experiential learning programs.

A newly formed online community

dedicated to bringing employers and educators together has been developed. As a result of extensive provincial consultation and collaboration www.employerregistry.ca has been launched. This is a no cost, easy to use gateway, connecting educators and their students to local employers. Interested employers are encouraged to register their business on the site.

Social Media Marketing

An Introduction to Social Media Marketing for Business was held on May, 18th. It was offered free to our members and

presented by Jody Lundrigan from the Ontario Chamber of Commerce. Social media marketing enables businesses to reach a broader audience in a cost effective way, through

avenues such as Facebook, Twitter, YouTube, etc. More workshops will be held in the future. We will keep you informed.

Doors Open Smiths Falls

This year's theme was "Moving Forward & Looking Back". The Doors Open event was again a successful one for Smiths Falls this year. This free

event invited visitors to explore unique and historic buildings, including personal homes, businesses and special locations throughout the Town of Smiths Falls. Some of the venues had

over 225 people come through their doors. The committee congratulates Leisa Purdon Bell for pulling off another great Doors Open Smiths Falls!

Local Immigration Partnership

The Town of Smiths Falls has formed its LIP council. The council will develop a local

settlement strategy as part of the Town's planning policy. The Chamber is being represented on this council along with 20

other participating businesses and government agencies.
